Artificial Lawns

Artificial Lawns

As one of the few Chinese mainland suppliers capable of providing artificial lawns and plastic racetracks, our company has served major buyers throughout Europe, Africa and Asia etc. China gives us convenient access to first-rate materials and experienced labor.

We are specialized in the manufacturing of artificial lawns and polyurethane-covered racetracks. We are ratified and praised by the industrial experts and our old clients for our leading production technique and experience in spread-installing.

Advantages: First-rate materials and experienced labor. The company is equipped with special product laboratory. This is the technical superiority which many companies are unable to compare.
