General Description of Outdoor Fitness Equipment

OUTDOOR FITNESS EQUIPMENT for ALL

Steel Exercise Equipment

For Parks, Schools, Playgrounds

Fitness Trails and Home.

Very Attractive and Affordable

Outdoor Fitness Inc. is proud to present a collection of 36 attractive steel exercise stations. A selection of equipment will provide a complete fitness and recreation facility to build upper body, leg and back strength as well as enhance agility, flexibility and endurance.

The equipment is equally appropriate if it is installed at a cluster of exercise stations, on a playground, or spaced along a fitness trail. It is effective for all ages, from elementary school children to senior citizens, and it fits perfectly in

both rural setting and inner-city.

Outdoor Fitness Equipment is built of powerful, heavy gauge steel and designed to last for decades in toughest outdoor environments. It is very attractive, with a vibrant powder coated finish. It is easily installed and virtually free of maintenance.

Horizontal Bars

Today, we all realize that fitness activities and an active lifestyle are essential for improving health, longevity and the enjoyment of life. Yet, people become increasingly sedentary and our nation faces a health crisis due to declining fitness level and growing obesity rate, especially among young people. The biggest obstacles remain personal motivation and opportunity.

Outdoor Fitness Equipment is an important part of the solution. Now schools, parks, community organizations, military units, businesses and individuals can benefit from installing a most effective and substantial fitness area at very modest cost.

Strength & Stretch Bars

The Outdoor Fitness concept assures you that everyone can make important fitness gains in an enjoyable outdoor environment.

Our price list will encourage you with the affordability of an outdoor fitness system which will benefit you and your organization. You will not find a better fitness solution when considering price and quality.
